# Cleaning our Waterways with Nature

## Across

- 2. A \_\_\_\_\_ tree has peeling white and brown bark with large, maple-like leaves.
- 6. Pennsylvania streams and creeks are known for native \_\_\_\_\_ (type of fish).
- 7. The \_\_\_\_\_ is our national bird that is often seen flying along waterways to catch fish.
- 8. A \_\_\_\_\_ is a home or environment of plants, animals and other organisms.
- 9. On average humans can live about three days without \_\_\_\_\_.
- 12. Approximately 95% of all birds feed \_\_\_\_\_ to their young.
- 14. The \_\_\_\_\_ River is the largest tributary of the Chesapeake Bay.
- 15. Water draining from farms, homes, and other places that flows into our waterways is called \_\_\_\_\_.
- 16. A riparian \_\_\_\_\_ is a vegetated strip of native plantings located along waterways.
- 19. \_\_\_\_\_ are harmful substances that have a negative impact to water quality.

## Down

- 1. Purple \_\_\_\_\_ is an invasive plant from Europe/Asia that is harmful to waterways.
- 3. Humans can live up to three minutes without \_\_\_\_\_.
- 4. \_\_\_\_\_ is the planting of trees that have been cut down due to timbering, urban use, or by fire.
- 5. A \_\_\_\_\_ is a kind of reptile that can live in water or on land.
- 9. A \_\_\_\_\_ is the area of land that includes a particular river or lake and all the rivers, streams, etc. that flow into it.
- 10. The weathering of the banks of a stream or creek indicates \_\_\_\_\_.
- 11. Bees, butterflies, and other pollinators need pollen and \_\_\_\_\_ to live.
- 13. The human body uses \_\_\_\_\_ from plants and animals to give them energy.
- 17. Oaks produce an \_\_\_\_\_ as a nut which is eaten by lots of wildlife such as turkey, squirrels, and blue jays.
- 18. Statistically most homeowners over use pesticides and \_\_\_\_\_ on their gardens and lawns.
